this talk is about:

what is Fedora?

who is Fedora?

why does Fedora matter?

how do you join the open source movement?

fedora

what is Fedora?

...a powerful operating system...

stable

secure

innovative

/* the best of what works today */

...a powerful operating system...

stable

secure

innovative

fedora

...a set of projects...

software packages

kernel, glibc, system libraries...

networking, data processing, analysis...

productivity, entertainment, multimedia...

/* more than 8500 */

software packages

kernel, glibc, system libraries...

networking, data processing, analysis...

productivity, entertainment, multimedia...

fedora

who does all this?

you do

fedora

get an account

as easy as any social site

http://fedoraproject.org/join-fedora

get an account

as easy as any social site

fedora

http://fedoraproject.org/join-fedora

what do you like to do?

fedora

http://fedoraproject.org/join-fedora

do it in Fedora

Fedora == do it

empower the community to take the reins

no dividing line

/* fanboys != contributors */

Fedora == do it

empower the community to take the reins

no dividing line

fedora

out of the chaos, innovation

we believe in upstream

we believe in the community

we believe in **YOU**

fedora

/* "if you want to try and stop me..." */

out of the chaos, innovation

we believe in upstream

we believe in the community

we believe in **YOU**

fedora

innovation never rests

stable, not steady-state

other options for long-term production

we are upstream for others

/* release every 6 months */

innovation never rests

stable, not steady-state

other options for long-term production

we are upstream for others

fedora

community power

music, art, security...

the newest open source community is still out there, waiting...

/* spin your own */

community power

music, art, security...

the newest open source community is still out there, waiting...

fedora

the world comes to us

open standards

open governance

open hands

fedora

/* freedom is a human need */

the world comes to us

open standards

open governance

open hands

fedora

THANK YOU.
